

FAITH HILL
FIREFLIES

Dear Friends and Family,

From July 5th to 12th, I am going to a church mission trip to Chicago to help the orphans and the homeless. We are also going to spread the word of God to those who need him the most. The picture of the bed above is where the homeless sleep. Since we have so much to give, we should help them and give them more than what they can afford. We are trying to show the ones who need help how God can help them and how their lives would be so much better. I hope that after we leave them, we can make an impact on them so that they can start over. I hope we can lead them onto the right path. American country and pop singer, Faith Hill, was adopted when she was just a few days old. She grew up to become a very successful and well-known singer. Faith Hill probably wouldn't have gotten to where she is now if nobody lifted her up when she was down and she also wouldn't have been who she is now if nobody helped her find her way. For this Chicago trip, I will need \$250. I would strongly appreciate it if you donated \$10 and pray for me when I am helping the needy.

If you would like to get involved, please make check payable to Toronto Chinese Baptist Church.

Thank you for your support.

God Bless,
Cynthia
